

Every year thousands of people within the UK experience a fire in the home. Tragically, many of these result in injury or even death.

HOME SAFETY VISIT

A large number of these fires could have been prevented if potential hazards in the home were identified and eliminated and the residents had a plan in case of an emergency.

To assist with this, your fire and rescue service has introduced 'Home Safety Visits'.

WHAT IS A 'HOME SAFETY VISIT'?

Home Safety Visits involve a fire and rescue service employee visiting your home to give advice and guidance in respect to fire and home safety needs. They will also assist you with the development of an escape plan.

WHO IS A 'HOME SAFETY VISIT' AVAILABLE TO?

Anyone who is concerned with improving safety within their home may request a Home Safety Visit.

WHAT IS THE COST TO RESIDENTS?

This FREE service is provided to develop a safer community. You may also qualify to have a FREE smoke alarm fitted in your home.

HOW LONG WILL A VISIT TAKE?

All homes have different requirements but a Home Safety Visit should take no longer than 45 minutes.
